

Washroom Solutions

Hand Towels

Confidence in safe, clean hands

Our Pacific range offers an extensive selection of quality hand towel and dispenser options, with a solution to suit your budget and surroundings.

- According to public surveys, disposable hand towels are the most preferred method of drying hands.
- Our Pacific range of highly absorbent, disposable hand towels are the ultimate solution for achieving thoroughly dry hands and are an essential component in healthy hand hygiene practices.
- Damp or partly dried hands are an ideal breeding ground for bacteria. Drying hands with disposable hand towels will significantly reduce the risk of contamination.

Gloves

Confidence in safe hands

Our Bio-Gone range of disposable nitrile gloves offer superior strength and tear resistance, and are less likely to cause an allergic reaction than natural rubber.

They are landfill-biodegradable, so better for our environment than normal disposable gloves.

The accelerator-free formulation protects very sensitive skin, while protecting you from a wide array of chemical hazards.

Need a longer cuff for those big jobs, try our long cuff nitrile glove.

*Please note, these are not landfill biodegradable.

For more information or to place an order, call us on (03) 548 5459 or email service@nelpack.co.nz
